

# SCIA

## Frequently Asked Questions

## Technical/Functional Questions

<b>What is your token?</b>	The SCI token will be implemented as an Ethereum-based token. At first it will be used within the SCI ecosystem as a method for users to access the full range of SCI products and services. Given the self-contained nature of the ecosystem, a token-based model for product usage will support the security and exclusivity for token holders to access the SCIApplication, this following to lead to the fundamental value of the token.
<b>How does your token work?</b>	The usage of the SCI token will eliminate payment inefficiencies and allow Stem Cell Innovations to provide access to cutting-edge stem cell technology for users within the ecosystem. All purchases and tools can be completed using the token within the ecosystem, allowing for a seamless experience for patients, doctors, and other service providers.
<b>Can this be done without blockchain?</b>	Traditional payment methods for medical services or products are inconvenient and often laborious, while international payments are particularly fraught with difficulties, such as long processing times and hefty transaction fees. Using one token to access everything in the SCI ecosystem breaks down barriers for patients and service providers to gain access to these services, which increases the frequency of use for patients and service providers alike.

## Project Questions

<p><b>What is Stem Cell Innovations?</b></p>	<p>Stem Cell Innovations (SCI) is a network of highly motivated researchers, expert medical professionals, dedicated investors, and innovative engineers working together to create a unique platform that brings together two of the most life-changing innovations of the 21st century: stem cell technology and blockchain technology.</p>
<p><b>What are you trying to accomplish?</b></p>	<p>SCI focuses on research and development in the field of stem cell science, with the dual purposes of furthering longevity of human life and expanding the access to stem cell treatments through cutting-edge technology.</p>
<p><b>Where is the company located?</b></p>	<p>Gibraltar</p>
<p><b>Where can I find out more about the team?</b></p>	<p><a href="https://scia.io/">https://scia.io/</a></p>
<p><b>Do you have competitors?</b></p>	<p>There are indirect competitors, through the fact that they work in the same industry, but no current direct competitors.</p>
<p><b>What differentiates your model?</b></p>	<p>The lack of communication and access continues to be problematic for the medical community in many areas of the world. Our vision is to ease all these aspects, so they can be available for anyone, anytime they need. We are ready to take the stem cell research and treatment to the next level.</p>
<p><b>Who are your partners?</b></p>	<p>Stem Cell Innovations maintains a broad network of researchers, expert medical professionals and innovative engineers who share the same vision as us. Every single partner of this network is providing an input into making this vision a reality.</p>

<p><b>What would the future look like if your project is successful?</b></p>	<p>Our goal is to expand our network with professionals, labs, clinics, hospitals, and nonprofit organizations around the world to further this research and development. We aim to connect people who need treatment with a dedicated team of professionals who can provide personalized solutions based on patient needs and location with the help of the data collected in our dual blockchain-supported platform.</p>
<p><b>What is the adaption strategy? How do you plan to grow the user base?</b></p>	<p>SCI will increase its reach over time through a well-structured international expansion program we've already developed and also by forging partnerships with other professionals, doctors, and merchants worldwide.</p>
<p><b>What's SCI's revenue model?</b></p>	<p>SCI has four main streams of revenue including the SCIApp, which requires a membership fee following a free trial. Stem Cell Labs will be franchised worldwide and will provide revenue. Selling of Stem Cell Products will provide another revenue stream, and fees collected for cord blood banking around the world, complete the revenue model for SCI.</p>

## Marketing

<p><b>How are you actively marketing your project?</b></p>	<p>As part of a targeted marketing campaign, SCI will allocate a number of tokens to individuals who are familiar with our company and want to promote our product to social media audiences around the world. An additional number of tokens will be reserved for bounty reward programs. Bounty tokens will be divided into group bounties and individual bounties, which will help promote the SCI project across platforms.</p>
<p><b>What events are you planning on attending or have you participated in?</b></p>	<p>We are planning to attend several conferences, and have also attended quite a few of them to date.</p>
<p><b>Do you have a Referral Program?</b></p>	<p>There is a referral program ongoing at this moment. To receive your referral code, please login to <a href="http://ico.scia.io">ico.scia.io</a></p>

## ICO Information

<p><b>What is the minimum amount for Presale/Public Sale?</b></p>	<p>The minimum for pre-sale purchase is \$500. Minimum public sale purchase will be 0.4 ETH.</p>
<p><b>Is a Private Sale ongoing?</b></p>	<p>No, the private sale has finished.</p>
<p><b>What is the Private Sale minimum?</b></p>	<p>The private sale has finished.</p>
<p><b>What is the Private Sale bonus?</b></p>	<p>Private sale finished.</p>
<p><b>How do I contribute?</b></p>	<p>You can contribute by participating in our token sale, which will start on September 17. <a href="http://www.scia.io">www.scia.io</a></p>
<p><b>Is there a Whitelist/KYC?</b></p>	<p>Yes, SCI will use a KYC process to validate participant identities. Country of Origin, Date of Birth, Name, and a passport photo will be required in order to purchase tokens in the ICO.</p>

<b>What is the ICO price of a SCI token?</b>	0.15 \$
<b>What is the soft-cap?</b>	3\$ Million
<b>What is the hard-cap?</b>	36\$ Million
<b>When will tokens be distributed?</b>	Within 30 days of the close of the ICO.
<b>What is the Total Supply?</b>	800 Million
<b>What is the Circulating Supply?</b>	240 Million
<b>What happens to unsold tokens?</b>	Unsold tokens will be burned
<b>What exchanges are you planning on listing on?</b>	The token sale will start on September 17. After the end of the token sale, we will confirm the first exchanges that are going to list our token.
<b>Who can contribute?</b>	Anyone who is not part of our “Excluded/ Restricted” list can participate.  Excluded/restricted jurisdictions include the following: The United States of America, People’s Republic of China (except Hong Kong, Macau, and Taiwan), Cuba, Iran, Democratic People’s Republic of Korea, Syria, Crimea Region.
<b>Was/Is there a Presale?</b>	Our pre-sale starts on September 17 <sup>th</sup> , 2018
<b>Presale Bonus</b>	Day 1-7 60% Day 8-14 55% Day 16-21 50% Day 22-28 45% Day 29- 42 40%
